

Come to Harvard to Learn High-Impact Sustainability Leadership

Executive Education for Sustainability Leadership

October 21-25, 2019

Harvard University, Cambridge, MA

<http://eesl.chge.hsph.harvard.edu/>

“Wherever your organization is regarding sustainability, this program helps you go to the next level.”
-- College President

“The thought leadership, the world class instructors and participants left me committed and reenergized to the power of sustainability leadership.”
-- Corporate Senior Vice President

“Relevant, engaging and visionary”
-- Assistant Director, Public Works, Local Government

“One of the highlights of my year!”
- Corporate Director of Sustainability

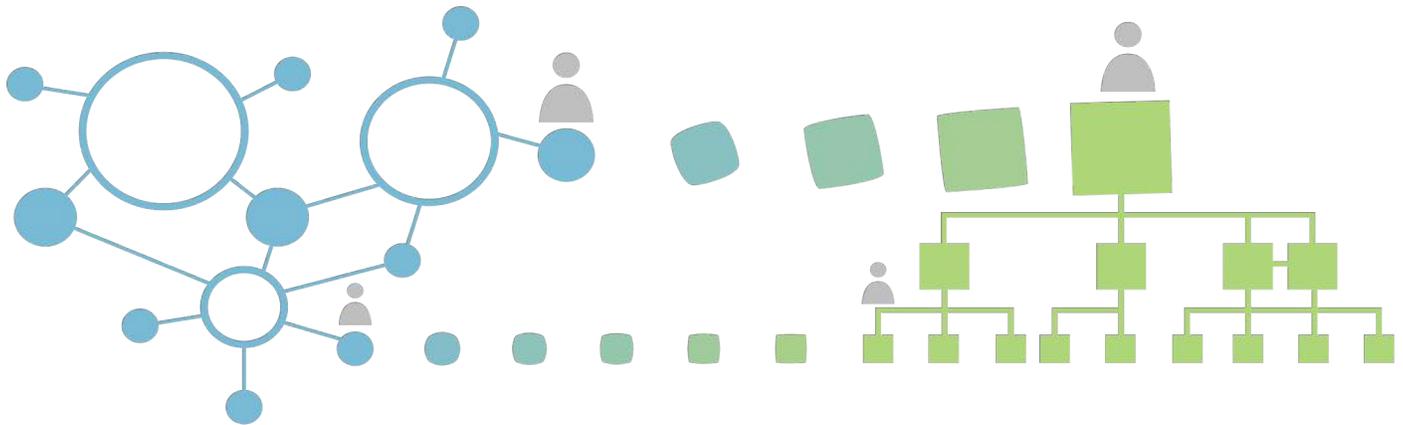

SCHOOL OF PUBLIC HEALTH

LEARNING OBJECTIVES

This program fosters a new kind of high-impact sustainability leadership for driving sustainability into the core of your business & mission while improving organizational performance.

Participants will develop leadership capabilities designed to:

- ❖ Position sustainability as a driver of innovation, agility & change capability
- ❖ Unleash human potential through purpose-driven engagement
- ❖ Create clear pathways for good ideas to come from anywhere and to take root
- ❖ Leverage positive social dynamics and social learning to increase idea flow
- ❖ Expand the sustainability business case & align finance & accounting for innovation
- ❖ Improve decision-making agility to allow for good ideas to be scaled up quickly
- ❖ Develop change leadership approaches that reduce risk and instability
- ❖ Learn the powerful new framework for organizational transformation

WHO SHOULD ATTEND?

Senior leaders, high potential emerging leaders, and sustainability professionals with a senior reporting relationship should apply.

The crucial mindset we seek in our participants is an appetite for positioning sustainability as a driver of innovation and change capability and a readiness to lead beyond “doing less bad” towards the triple bottom line of economic, social, and environmental wellbeing.

The unique convening power of Harvard ensures a high caliber, diverse and engaged cohort capable of co-creating the optimal learning experience for fellow attendees.

“The thought leadership provided by the world class instructors and my fellow participants left me motivated, committed and reenergized to the power and inspiration of sustainability leadership.”

**- Robert Bolin, Senior VP, National Director of High Performance Solutions,
Syska Hennessy Group**

FOR SENIOR LEADERS FROM ALL SECTORS

“I think one of the most extraordinary things for me was how easily I became de-sectorized, so I arrived as an educational professional and within three days I was actually seriously looking at the challenges of leadership with people with tiny businesses and multi-million dollar businesses, sectors I have never worked in ... You have the real opportunity to develop networks and partnerships with people from completely different fields to your own.”

*- Dr. Jane Davidson, Pro Vice-Chancellor for Sustainability and Engagement,
University of Wales Trinity Saint David*

The cross-sectoral diversity we strive for in this program has proven to be a key highlight for attendees. Looking at sustainability leadership through the lens of peers working in different fields, sectors and regions fosters insight and clarity around what works, what does not and why. The diversity of attendees brings focus to our deeper, common 21st century leadership challenges and the shared work ahead to transform the nature of leadership across all sectors.

See below for a sampling of organizations and networks that have been represented in our past cohorts:

Business Sector

Unilever
H&M
Bayer
Danone
Gap, Inc.

Federal Bureau of Investigation

ADMISSIONS PROCESS

Apply at bit.ly/EESLApp

Your application will be reviewed within 10 business days. If you match the program criteria and are accepted, you must register and process payment to secure your seat. Tuition is \$4300. There is no application fee.

A diverse participant mix is an important part of every Executive Education program. We look for experienced executives who reflect a broad range of industries, sectors and backgrounds, and who can enrich your learning experience.

Hotel rooms are available at a discounted rate through September 21, 2019. Your registration packet will contain reservation information.

ATTENDING IN TEAMS

We have had several organizations send multiple individuals to attend as a team.

Doing so is helpful for:

- ❖ keeping executive team members on the same page with regard to strategic plans
- ❖ developing a shared language related to the course frameworks, which will help to accelerate the pace of change within your organization
- ❖ in situations where there is a concern about the strength of an application based on your position in the company, the application can be strengthened by bringing a more senior member with you

“Having a diverse team from my organization attend the Exec Ed program multiplied the effectiveness for me. It gave me a community of leaders that have a shared lexicon and helped us to better understand each other and how we can work together to transform our institution.”

- Aurora Winslade, Director of Sustainability, Swarthmore College

HARVARD FACULTY AND GUEST PRESENTERS INCLUDE:

- **Anne-Claire Berg**, Global Culture and Engagement Director, *Danone*
- **Chris Gyori**, Co-Founder and CEO, *Leaders on Purpose*

Stay tuned for updates in our faculty roster for 2019

THE RE-ENTRY LAB

Attendees to the October 2019 offering can opt to participate in the companion Re-Entry Lab for 6 months following the course residential. Through the Re-Entry Lab, participants decide how they wish to apply course concepts in their organizations, communities and networks. Lab participants are placed in small groups to engage in regular, meaningful thought-partnership around the development of each participant's experience in the field. Participants convene virtually to share updates on their progress along with lessons learned from the applied experience. This opportunity allows course participants to remain connected as a professional learning community after the residential, sharing new perspectives on efforts to increase our rate of change and innovation through improved organizational design, idea flow and other leadership breakthroughs.

THE HARVARD EXPERIENCE

We deliver the content, the experience, and the networks that will clarify, energize, and enable a new kind of sustainability leadership potential to be realized by participants.

Harvard's convening power is world renowned. This affords us the opportunity to offer an expertly-curated space for leaders from all sectors to access world class thought leaders and practitioners and to engage in vibrant thought leadership with fellow participants.

After the four days, you will leave with an expanded capacity for high impact sustainability leadership. You will also have a new network of like-minded high impact sustainability leaders to learn with as you continue your journey to achieve agility within your organization.

WHAT'S THE VALUE PROPOSITION?

- ❖ Advance your abilities as a high-impact sustainability leader
- ❖ Learn powerful new frameworks, tools, case stories & roadmaps
- ❖ Apply course frameworks to other organizational challenges & priorities
- ❖ Develop your networks with leaders from across all sectors
- ❖ Receive a certificate of participation from Harvard University in "Executive Education for Sustainability Leadership"

WHAT PAST PARTICIPANTS WANT YOU TO KNOW

"...an extremely sound investment for any sustainability leader trying to work out how to get things done." - *Senior Director, Environmental Strategy, Office Depot*

"Provides an important framework for affecting change in a rapidly changing and socially-connected environment." - *Senior Vice President & Chief Sustainability Officer, MGM Resorts International*

"This is not a program you walk away from and say, 'that was nice'. What you learn goes with you and continuously influences your thoughts and actions in ways large and small for a very, very long time." – *President, Lamar Community College*
